PROFESSIONAL SUMMARY

AWS Certified Solutions Architect – Associate and aspiring Cloud & DevOps Engineer with hands-on experience in AWS, Terraform, Docker, Kubernetes, Argo CD, CI/CD, and observability. Built production-style cloud and DevOps projects focused on infrastructure automation, high availability, monitoring, cloud governance, and cost optimization. Strong foundation in Linux, networking, cloud architecture, and modern DevOps practices.

EDUCATION

Er. Perumal Manimekalai College of Engineering Bachelor of Technology (B. Tech) in Artificial Intelligence and Data Science Current GPA: 8.5 / 10.0 (8th Semester Completed – Final Results Awaited)	Hosur, India Aug 2022 – Jun 2026
Advaith International Academy (CBSE) – 12th Percentage – 64%	Hosur, India Jun 2020 – May 2022
Eden Garden English School (CBSE) – 10th Percentage – 81%	Krishnagiri, India Jun 2019 – Mar 2020

SKILLS SUMMARY

• Cloud Platform:	Amazon Web Services (AWS)
• AWS Services:	EC2, S3, IAM, VPC, RDS, CloudWatch, Route 53, Auto Scaling, ELB, AWS Budgets, CloudTrail
• DevOps & Platform Engineering:	Docker, Kubernetes, Argo CD, Terraform, Jenkins, GitHub Actions, GitOps, CI/CD Pipelines
• Monitoring & Observability:	Prometheus, Grafana, CloudWatch, Metrics Collection, Dashboarding, Alerting, Logging
• Operating Systems:	Linux, Ubuntu
• Networking:	Routing, Load Balancing, Public/Private Subnets, Security Groups, NACLs, NAT, IGW
• Programming & Automation:	Python, Bash, JavaScript
• Architecture	High Availability, Fault Tolerance, DR Strategies, Cost Optimization, Shared Responsibility

PROFESSIONAL EXPERIENCE

ZIDIO DEVELOPMENT - INTERN - Developed and deployed full-stack web applications using the MERN stack. - Built secure REST APIs and implemented cloud-hosted deployment workflows. - Worked with monitoring, authentication, and scalable application architectures.	June 2025 – July 2025
--	------------------------------

CLOUD & DEVOPS PROJECTS

Enterprise AWS Infrastructure Provisioning Platform (Terraform) Automated multi-environment AWS infrastructure provisioning using modular Terraform architecture with remote state management and Infrastructure-as-Code best practices.
Highly Available Multi-Tier Application Platform on AWS Designed a highly available AWS architecture using Application Load Balancer, Auto Scaling, RDS, and CloudWatch for resilient and self-healing workloads.
Kubernetes Platform Engineering Project Deployed and managed containerized applications on Kubernetes using Deployments, Services, Ingress, RBAC, ConfigMaps, Secrets, and Horizontal Pod Autoscaling.
GitOps Continuous Delivery Platform Implemented GitOps-driven Kubernetes deployments using Argo CD to enable automated, version-controlled, and auditable application delivery.
Observability & Monitoring Platform Developed a centralized observability platform using Prometheus and Grafana to monitor infrastructure, applications, and operational health.
Automated AWS Cost Governance & Remediation Platform Engineered an event-driven cloud governance solution using AWS Lambda, DynamoDB, and EventBridge to automate cost optimization and resource remediation.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate	May 2026
AWS Certified Cloud Practitioner	Jan 2026
